MEMORANDUM

TO: Mary Pottorff, Philip Morris International

FROM: Brennan Dawson, The Tobacco Institute

John Rupp relayed your request for information about the upcoming Department of Transportation Cabin Air Quality Study. I have attached a copy of The Institute's response for your information.

By way of background, our best information indicates that the Department will release the report next Monday without official recommendations or special emphasis on press activity. However, the flight attendants may try to capture further attention based on the study.

While you are, of course, free to use any of the information from our release, distribution prior to the DoT release of the data would be premature. Should you have any questions, or need additional information, please give me a call (202/457-4877).
